MedEquip Biomedical Hires Paul Raffaelli as Director of Business Development

Doral, Florida- August 22, 2011-MedEquip Biomedical hired Paul Raffaelli as Director of Business Development. Raffaelli will be directly responsible for sales growth and business development.

Raffaelli brings with him more than twenty years of successful professional experience. His experience in leadership, communications, managing sales and cultivating clients have lead him to work for Global Medical Imaging (GMI) and Sonora Medical Systems. This year Raffaelli was honored with being 2010-2011 vendor rep for the Florida Biomedical Society, has won several merit awards with employers over his professional career and still has a passion for success. He is a dedicated professional with great spirit and enthusiasm to serve an organization and continue to grow professionally.

MedEquip Biomedical specializes in third party depot repair services, parts and system sales for physiological monitoring. Serving biomedical and clinical engineering departments in hospitals throughout the United States and Internationally, MedEquip offers flexible purchase, rental, or lease agreements in addition to their depot repair services. For more company information, visit www.MedEquipBiomedical.com or call toll-free (877) 470-8013. Speak to a customer service representative or OEM trained specialist.
